IsraelTeenTech 2022

This year - for the first time ever, Hackathon finalists will participate in the Maccabiah.
ISRAELTEENTECH brings Israeli students together with students from all around the world for an international science and technology competition

OVERVIEW OF THE INITIATIVE

IsraelTeenTech is an annual international science and technology-based competition for young entrepreneurs. Over the past few years, hundreds of young tech enthusiasts and aspiring entrepreneurs from over 20 countries arrived in Israel to participate in this exciting program. IsraelTeenTech aims to introduce talented students to Israel's strengths as a scientific and technological world leader.

SUPPORTED BY

This global initiative is supported by multinationals and top institutions from Israel, including:

MISSION AND GOALS

- Share Israel's wealth of knowledge as a leading tech nation with students, and create an Israel-based virtual technological incubator for youth from around the world.

- Mentor program participants to become future leaders in technology and entrepreneurship.

- Establish a foundation that fosters collaboration among participants to tackle technological matters, while receiving guidance and support from world-class scientists and Israel-based global companies.

- Create long-lasting connections among youth from around the globe.

May 11	Digital Hackathon
Summer 2022	Innovation challenge in Israel for the finalists!

ISRAELTEENTECH

FINALISTS & AWARDS

Finalists will participate in the Innovation Challenge and Maccabiah events that take place in Israel!
All finalists will work together on a joint venture to try and solve a technological challenge. Scientists, physicians, researchers and entrepreneurs from all of our partner organizations will mentor the participants.
Over the course of the week, teams will get to know one another, experience life in Haifa, tour Israel, and meet Technion's scientists, as well as entrepreneurs from the various high-tech companies.

PRIZES

Members of the winning team will receive a one-year tuition scholarship to the Technion – Israel Institute of Technology.

Additional prizes will be announced in the upcoming weeks.

REGISTRATION

Registration fee for the Digital Hackathon: 40$ per participant

Participation fee in the Innovation Challenge in Israel: 1,200$ per participant

*Registration fee payable to the Haifa Foundation (donation) via the registration form linked on the website. Registration fee is nonrefundable.
